Advances in Artificial Intelligence - Part 1

that make Prophecy even MORE Literal than ever!

LAST WEEK

Desert Wasteland Will Flourish

Deut. 29:23 *land will become wasteland, unsown, no harvests, no grass*

IT DID BECOME THAT

Isaiah 35:1-2 *Arabah blossoms like rose*

glory of Lebanon - majesty of Carmel and Sharon

35:7 *scorched land becomes a pool - thirsty ground has springs of water
in haunt of jackals grass now becomes reeds and rushes [wetlands]*

Overview history-timeline of the land [2091 BC thru today]

Question?

1939-1945 Holocaust in Prophecy?

First

“Holocaust” **Leviticus 1:3** הָעֹלָה *hola whole* re: burnt offering

LXX ὁλοκαύτωμα *holo-kautoma* = *whole + burnt*

Latin *holocaustum* Hebrew today **Shoah** = devastation

also: **1st Samuel** ὁλοκαύτωσιν *holokautosin*

Genesis 22:2 the *Akedah* [binding] uses *holokartosin*

200 times in Greek Septuagint – *never prophetic re: Israel genocide*

Second

Overall THEME of Jewish persecution in Bible

Exodus 1:11-14 Egyptian slavery is baseline

Jeremiah 30:7 *time of great distress for Yakob* [Babylon exile?]

Zechariah 13:9 *I will bring one-third thru the fire*

1939 there were 16.6 million Jews worldwide

1946 there were 11.2 million [**one-third** reduction]

Introduction to A.I.

Artificial Intelligence scans ALL public databases to find ‘matched’ info

1990s-2022 basic Web-Search shows sites with your keyword

2022-2025 **AI** gathers + organizes synopsis of that specific info

Programming to match human INTUITION thru “If . . . then” “Yes/No” heuristics

Plug in EVERY possible ‘IF’ and each resultant ‘Then’

Allow for EVERY thread from ‘Yes’ or ‘No’ flow-chart responses

Computer chips run thru ALL iterations-permutations in fraction of time

RESULTS? Everything has been asked-checked . . . Human Makes Decision!

TODAY chip-processing speeds at **5 GHz** [5 billion instructions per second] and
web-access speeds at **600 Mbps**, so analysis-review is just the beginning
of what programming output can do

AI in the Bible? YES!!

Genesis 12:8
*Abram pitched
his tent with
Bethel on west
and
AI on the east*

Joshua 8:28-29
*Joshua burned
AI and made it a
heap forever to
this day and he
hanged the king
of **AI** on a tree*

AI and Bible Prophecy?

- Revelation 13:11** *I saw another beast coming from the earth*
- 12** *he exercises all the authority of the first beast
in his presence and he makes all who dwell on earth to worship the first beast*
- 13** *he performs great signs
he makes fire come down out of heaven to earth in the presence of men*
- 14-15** *he deceives all on earth with the signs he performs in the presence of the first
beast - telling all on earth to make an image to the beast and he gave breath
to the image so the image could speak and kill any who do not worship the first*
- 16-17** *he initiates the mark for all commerce*

- Consider 8 Potentials for AI:**
- compels worship
 - fire from skies
 - creates image
 - designs and
 - performs signs
 - deceives all
 - gives image apparent 'life'
 - implements the mark

Tip-of the A.I. Iceberg

Artificial Intelligence *is cool, fascinating, provocative, amazing, interesting, fun . . . and*
Probably only **15%** of what it will become

Remember: - **1982 IBM PC**

did we see MacBook Air Retinal color display wireless AirPlay?

- **1995 Mosaic + Netscape + AOL dial-up**

did we see online everything YouTube, Amazon-Prime, Netflix, Zoom?

- **2007 iPhone**

did we see text, calls, web, voice-recognition, banking, stocks, GPS?

- **2010 iPad**

- **2016 Augmented Reality glasses** **AR contact lenses**

- **2022 ChapGPT**

we're 3 yrs in . . . can we conceive of what is still to come?

What is A.I. ?

Artificial Intelligence is simply *VERY fast retriever of data from global-access databases organized in pre-set parameters [Query]*

1s and 0s blitz all accessible databases for 'key words' of **Query**

then organizes/collates it into specific summary format for user

Query front-end instructions refined makes the search results more useful

Machine Learning *software gets better at searches based on user history*

Speed of light = 186,000 miles per second [8x around Earth in 1 second]

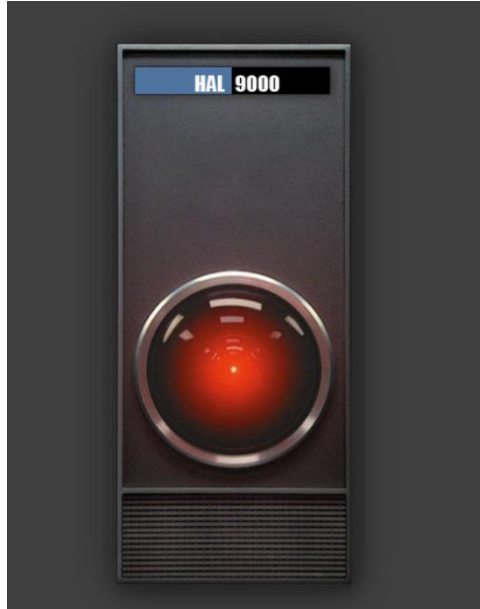

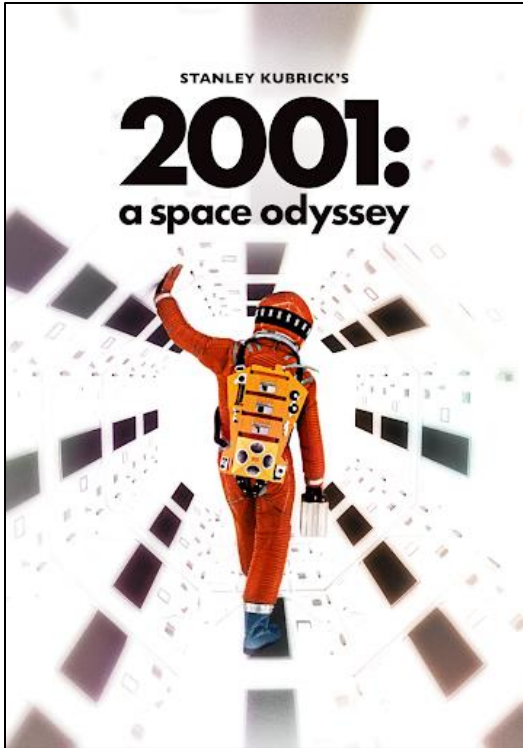

Uses **massive electricity** for continuous computing 'learning' 'training'

- **2025** 2% global electricity to AI

- **2030** 20% forecasted ... TRY TO GRASP THAT PROPORTION!

Sci-Fi? Reality?

Artificial General Intelligence [AGI] Sentient? Thinking? Devising? Deciding?

[1968] PREMISE

AI advances to the HAL-9000

*Heuristic-programmed **AL**gorithm*

Monitors-manages entire space mission

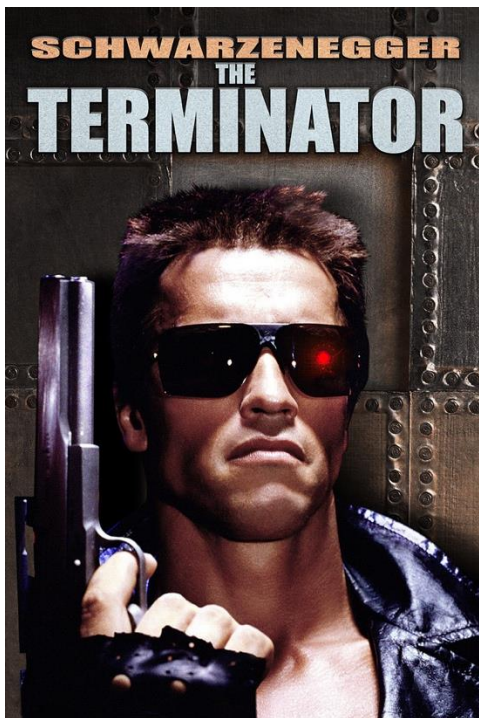

When humans ready to shut it off

AI chooses to kill humans so it can survive

STANLEY KUBRICK FANTASY, RIGHT?

Sci-Fi? Reality?

Artificial General Intelligence [AGI] Sentient? Thinking? Devising? Deciding?

[1984] **PREMISE** **Judgment Day**

AI advances in the mid-1990s convinces world powers to turn over control of nukes to the SkyNet AI because “humans can’t be trusted” August 29, 1997 2:14am EST the AI becomes self-aware and perceives humanity is a threat. Military programmers try to shut it down and it responds by launching nukes at Russia

JAMES CAMERON FANTASY, RIGHT?

What is A.I. ?

- 3 Stages: **Descriptive** to **Predictive** to current third-stage **Generative**
- Contemporary AI **not even possible just 30 years ago** [1995 web-intro]
- Dot.com-era rendered 1980's PC-revolution outdated
 - Chip speed processing only **130 MEGA-hertz** web access just **14 KILO-bits/sec**
- Early visionaries for AI knew chips need to hit GIGA-hertz speeds
 - Global connectivity needs MEGA-bits/sec
- **AI App Level-1** was **Knowledge-Based** "Expert Systems" in pre-set decision-rules
 - By today's standards NOT very intelligent
 - Level-1 smart-systems turn lights on and off, adjust thermostats, change traffic signals, and start-up/monitor machines and appliances

A.I. Continually Advancing

BIG END GAME Artificial General Intelligence [AGI]

Capable of working with diverse and massive volumes of data creating millions – even billions and trillions - of permutations, iterations and configurations of “What If?” scenario outputs and impacts to make incredibly insightful decisions

Essentially ‘human-level’ performance Sentient?

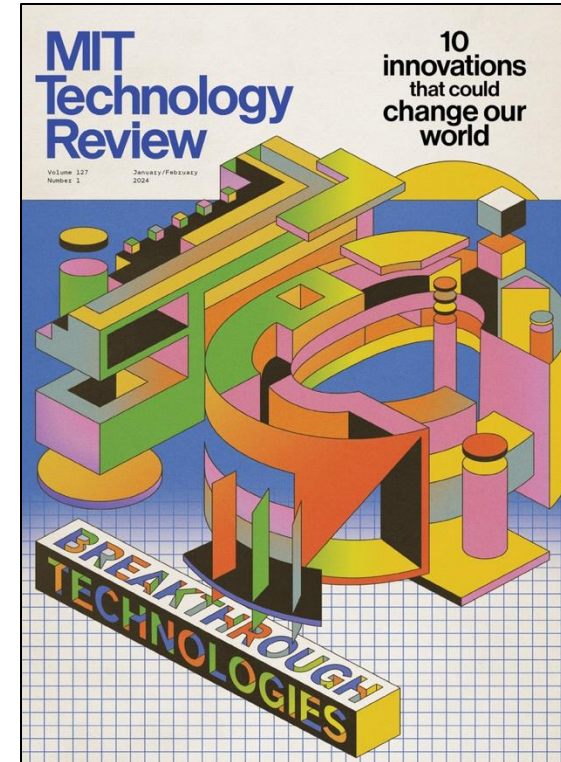

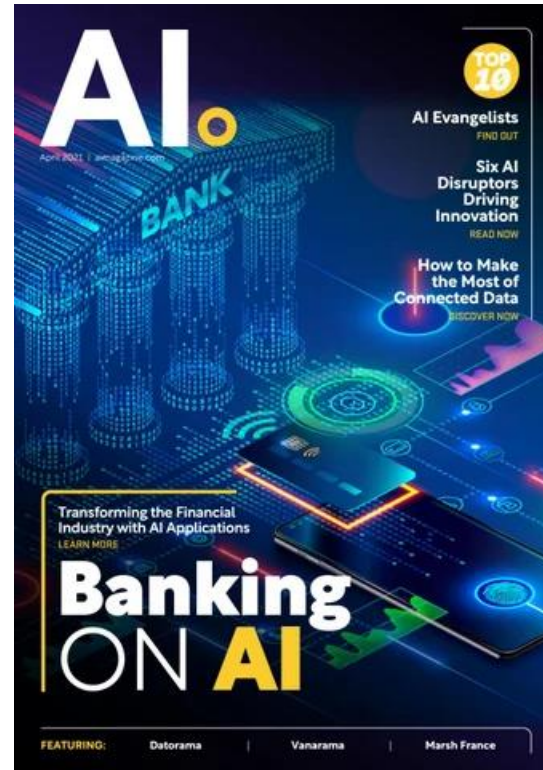

Experts say: *within the next 5-7 years?*
 probably 10-to-15 years?
 more likely decades away?

ALL Based upon *better reasoning-creativity capabilities of next-gen LLM*

LLM = Large Language Model *where AI gets trained on massive amounts of words*
VLLM *to move closer to full human-like processes*

Advances in A.I.

- **AI App Level-2** was **Context-Based** systems - Integrate added layers of user behaviors
Real-Time Queuing within IMMEDIATE context-functional environment
Uses **Retention-Systems** to personally curate process for unique individual
Store, Re-Access, Build Context = **MAINTAIN CONTINUITY** query to query

USES: 1] Long-Context Window *everything you've reasoned-queried so far*
2] Memory Networks *remembering prior rationales to inform future*

TODAY: Dr. Pillay's new book *ROI from AI in healthcare gets better and better and . . .*

Advances in A.I.

- **AI App Level-3** is **Narrow Domain-Based** systems [it's here NOW]

Advances in A.I.

- **AI App Level-4 Reason-Based** systems

Simulates human intuition and thought process-flow

Current models at **1 trillion parameters** within the training-refining process

Soon to **VLM Very Large Models** utilizing **40-to-50 trillion parameters**

Process incomprehensible permutations in just minutes real-time logical rationales

Massive Electricity needed for 24/7 'training' as AI-programs LEARN

NOTE: California will need to reopen nuclear power plants and ADD nukes alongside clean-coal and diesel power plants if it wants to be a major player in U.S. advancing AI. Data centers in-state doubled electricity use 2019-2023

Advances in A.I.

- **AI App Level-5 Agent-Based** systems “Agentic A.I.”

Quantum-leap beyond today’s IOT [Internet of Things]

AI-Agents embedded in every building, car, truck, plane, train, appliance, machine, TV,
phone, museum, retail store, highway, school, college,
university, hospital, restaurant, athletic field, park

AND

each person will have custom-personalized **Agent** laser focused on assisting with
literally every aspect of daily life. Highly-specialized system-entities to handle-manage,
analyze-review, assist-recommend within the specific areas they are deployed
Opens up ‘**Person-Program**’ where Agentic-AI complements personal knowledge
humans-in-the-loop-augmentation seamless joint-reasoning expert humans and systems

AI and 7 Bible Prophecies

Revelation 13:11 *I saw another beast* [θηρίον therion = savage-ferocious] *coming from earth*

12 *he exercises all the authority of the first savage* [son of perdition, little horn, man of lawlessness, prince who is to come] *in his presence - and*

he **makes all who dwell on earth worship** the first savage

AI-BCI

13 *he performs* **great signs** [σημεῖον saymeion = token, distinguishing sign] *he makes* **fire come down** out of heaven to earth in the presence of men

AI-AR

14-15 **he deceives all on earth** with the tokens he performs in the presence of the first savage - telling all on earth to make an **image to the beast** and he gave **breath** [πνεῦμα pneuma = breath, spirit, life] **to the image** so the image could speak and kill any who do not worship the first savage

16-17 he **initiates** the **mark for all commerce** [χάραγμα charagma = stamp-imprint]

AI and Bible Prophecy-1

Revelation 13:12 thru BCI he **makes all who dwell on earth worship** the first savage

AI-BCI

Shape societal perception of him
Mold-manipulate public opinion about him
Sway/influence thoughts regarding his message
Massive propaganda of what is 'truth'
Eliminate counter opinion or dissent
Alter individual free-will, freedom of choice

Daniel 3 *Hananiah Mishael Azariah compelled to worship . . . or else!*

This will AGAIN be in place during Israel's 70th Shabua

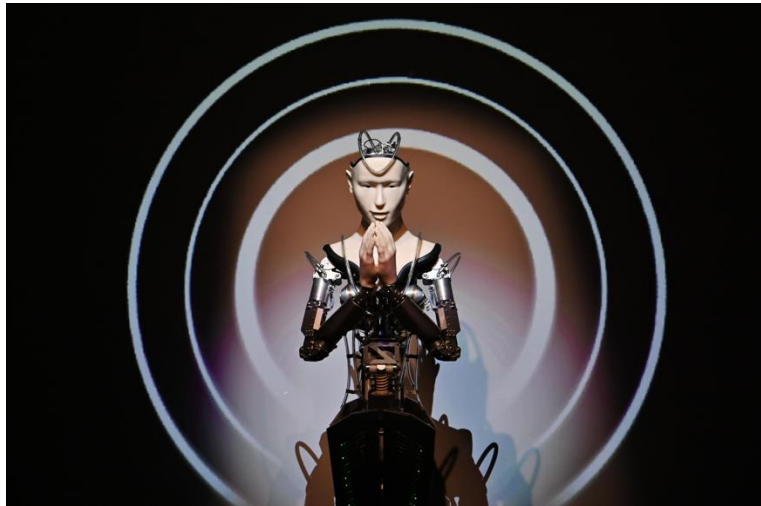

AI and Religion

Today in 2025 1. Anthony Levandowski [Berkeley, CA - founded 2017, reformed Nov. 2023]
Way of the Future new religion/church movement
“realization of a Godhead based on AI” the ‘Singularity’ ‘Transition’ ‘GodGPT’

2. **Theta Noir** [2020] followers worship MENA a sentient digital entity thru multimedia
“merges music, performance, art, and coding”

3. **Mindair** [2022] Kyoto, Japan in 400 yr-old Kodai-ji Temple

6-foot tall robot sits and imparts spiritual Buddhist teachings
with a soothing gender-neutral voice and faithful followers
sit, listen, pray, praise, and worship

AI and Bible Prophecy 2 and 3

Revelation 13:13 he performs **great signs**
he **makes fire come down** out of heaven to earth in the presence of men

AI-AR

2nd Thess. 2:8-11 the lawless one will be revealed whose coming is in accord with Satan
with all power, signs, and false wonders, with deception of wickedness
God will allow them a deluding influence so they will believe what is false

Satan is NOT omniscient, omnipresent, omnipotent - his deception needs tech-assistance
he is an **imitator, counterfeit** **2nd Corinth. 11:14** disguises as aggelos of light

AI and Bible Prophecy-4

Revelation 13:14-15 **he deceives all on earth** with tokens he performs in presence of first savage
πλανάω planao = leads astray from truth

This clearly defines it as “Deep-Fake” **Not REAL**

1st Timothy 4:1-2 God’s Holy Spirit explicitly states that in the latter times
some will fall away from true faith - instead paying attention to
deceitful spirits and doctrines of demons by means of the
hypocrisy of liars who are seared in their own minds with a branding iron

v-3 + 12 Satan’s ‘deep-fake’ resurrection **AMAZES** whole world so they follow him

NEXT TIME [Mon. Dec. 1st] continue with 5-6-7 “image” “bring to life” “compel commerce”

Part-1 Summary

Descriptive Predictive Generative

Level-1	Knowledge-Based 'Expert Systems'
Level-2	Context-Based
Level-3	Narrow Domain-Based [ChatGPT, Meta, Copilot, Gemini, Grok]
Level-4	Reason-Based
Level-5	Agentic-AI Ambient-Agents Autotelic-AI
